Welcome to Happy Shacks

Insulated Metal Storage & Garden Sheds, Studios, Cabins & Workshops

The unique, award-winning Happy Shack® is the ultimate storage or garden shed, backyard studio, cabin or workshop. Designed and manufactured in B.C., eco-friendly Happy Shacks are made from panels generated in the outside door manufacturing process. Each insulated panel is a 1¾ inch block of foam insulation sandwiched between primed 28-gauge galvanized metal. The finished product is an amazingly strong and relatively inexpensive structure that's ideal for residential or commercial storage or for use as a studio or workshop. Whatever the use, a Happy Shack -- winner of an Environmental Achievement Award -- will give you year-after-year of maintenance-free service. Compare Happy Shacks with other garden and storage sheds, and you'll be impressed with our quality, creativity and unbeatable value for money.

Available in a range of sizes and attractive styles, pre-fabricated Happy Shacks can be assembled with only a few tools in a matter of hours. We also arrange delivery and set-up services.

Happy Shack Specialty Products

Happy Shack Studios

For those who want more than a garden shed, our range of attractive "studios" are ideal for sleeping cottages, children's play rooms, artists and crafters' studios and many more creative and flexible uses. However you use it, a Happy Shack "studio" will beautify your backyard and enhance the value of your property.

Harry's Potter

Orchardists, wineries, construction sites and other users are finding our sturdy, yet portable, outdoor toilet cabins to be the bottom-line solution to their site sanitation requirements. The spotless interior is designed for easy cleaning. The side vents are located for privacy as well as ample fresh air movement. A rear panel provides easy access for emptying your plastic barrel holding tank. Single and double size cabins available.

Workshops and Agricultural Sheds

Need a workshop or an agricultural shed to store special materials? We custom build pesticide and other special-use sheds to your specifications. [Contact us](#) with your requirements.

Happy Howsers

A dog house like no other. Your dog will love our chew-proof Happy Howser. Prices start at \$199.

Happy Planters

These insulated planters are the best planters on the market. They hold the heat in long-past sunlight hours, herbs grow better, plants last longer in the fall and they look great. Environmentally friendly too. They arrive primed and ready to paint.
